WORK EXPERIENCE

Software Engineer Intern @ Rithm School SIS

JULY 2021 // San Francisco (Remote), CA

- Designed and implemented new features for student and admin (which are now in production) functionality using Github & agile development on a team of 8 developers.
- Used Test Driven Development to add new features to (Django) to the Student Information System. Development practices included stand-ups, storypointing issues, and researching codebase to help with onboarding process.
- Significant features include: integrating external script for automated certificate creation and upload to AWS S3 (with *reportlab* and *boto3*), integrating OAuth for federated login, customizing Django model methods for authentication, & migrating database changes

Operations/Office Manager @ Prepped, LLC

AUG 2019 - MAR 2021// Los Angeles, CA

- Core team member in e-commerce startup in a core team of 4, managing contractors/suppliers, production/shipping, digital/traditional marketing, integrating logistics tech & launching new products.
- Created static **HTML landing pages** & wrote **Python** scripts with **openpyxl** for automating production management tasks and decreasing food waste.
- Acted as the point person for contacted developers and communicated essential features between CEO and remote development team with Jira

Lead Teacher/Program Coordinator @ Star Education

AUG 2018 - MAR 2019// Los Angeles, CA

- Coordinated an Early Childhood Aftercare Program with 4 staff members for aftercare non-profit with LAUSD.

Freelance Content & Web Design

AUG 2015 - NOW// Los Angeles, CA

- Created marketing/creative content for local businesses and artists, including web design with Wordpress & Figma.
